SHIZEN

Nature

Only with the four elements of nature can the world function in perfect symmetry and equilibrium.

*Wild gusts of **air** raise clouds in the sky to form droplets of **water** that rain down on the **earth** and nurtures its abundant flora and fauna along with the wood that ignites the flames of **fire**.*

Join us as we honour the natural elements - Air, Water, Earth, and Fire with our special cocktails.

土

EARTH

*Steadfast, it sits; stays.
Foundation beneath our feet.
Silently breathing.*
